The screenshot shows the Taishin Life website (epolicy.taishinlife.com.tw) with a large red checkmark icon and the text "電子保單簽收/下載完成！" (Electronic Policy Receipt/Download Complete!). Below this, it says "下載後電子檔案務必自行妥善保管，密碼勿讓第三人知悉，以確保個人資料安全。" (After downloading, please妥善保管 the electronic files, do not let third parties know the password, to ensure personal information security). A red button at the bottom says "繼續簽收或下載" (Continue receipt or download).

On the right, a browser extension notification is shown. It has a title bar "已封鎖彈出式視窗" (Blocked pop-up window) and a URL "blob:https://epolicy....7-499c-938b-9cb1892b4e9d". The notification contains two options: "一律允許 https://epolicy...taishinlife.com.tw 的彈出式視窗和重新導向" (Allow all https://epolicy...taishinlife.com.tw pop-up windows and redirects) which is selected with a radio button, and "繼續封鎖" (Continue blocking). There are "管理" (Manage) and "完成" (Done) buttons at the bottom of the notification.
